## Report of Independent Auditor

To the Board of Directors  
Prince William Self-Insurance Group Workers' Compensation Association  
County of Prince William, Virginia

### Report on the Audit of the Financial Statements

#### **Opinion**

We have audited the accompanying financial statements of Prince William Self-Insurance Group Workers' Compensation Association (the "Association"), a component unit of the County of Prince William, Virginia, as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Association's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Association, as of June 30, 2022 and 2021, and the changes in financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Association and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2022, on our consideration of the Association's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Association's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Association's internal control over financial reporting and compliance.

**Prince William Self-Insurance Group  
Workers' Compensation Association**

**Management's Discussion and Analysis (Unaudited)  
June 30, 2022 and 2021**

---

**Introduction**

This section of the Prince William Self-Insurance Group Workers' Compensation Association's (the "Association") annual financial report presents a discussion and analysis of the financial performance of the Association for the years ended June 30, 2022 and 2021. Please read it in conjunction with the financial statements, which follow this section.

**Overview of the Financial Statements**

The Association's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. The primary purpose of the Association is to make available a long-term, stable source of cost-effective workers' compensation insurance protection for its members, which consist of Prince William County, Virginia (the "County") and the Prince William – Manassas Regional Adult Detention Center. The Association operates in a manner similar to an insurance company. The Association is considered a blended component unit of the County. These financial statements are presented using the economic resources measurement focus and accrual basis of accounting. The three basic financial statements presented are as follows:

- **Statements of Net Position** – These statements present information reflecting the Association's assets, liabilities, and net position. The Association's net position represents total assets less total liabilities. The Statements of Net Position are categorized as to current and noncurrent assets and liabilities. For purposes of the financial statements, current assets and liabilities are those assets and liabilities with immediate liquidity or which are collectible or becoming due within 12 months of the statement date.
- **Statements of Revenues, Expenses, and Changes in Net Position** – These statements reflect the operating revenues and expenses, as well as non-operating revenues and expenses, and surplus distributions, if any, during the fiscal year. The major source of operating revenues is premium income and of non-operating revenue is investment income. The major operating expenses are losses and loss adjustment expenses related to claims, excess reinsurance premiums, and general administration expenses. The change in net position for the Association is similar to net profit or loss for a group self-insurance association.
- **Statements of Cash Flows** – The Statements of Cash Flows are presented on the direct method of reporting, which reflects cash flows from operating, investing, and financing activities. Cash collections and payments are reflected in these statements to arrive at the net increase or decrease in cash and cash equivalents for the fiscal year.
- **Notes to the Basic Financial Statements** – The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements can be found following the statements of cash flows.

The table on the next page summarizes the financial position and results of operations of the Association, as of and for the fiscal years ended June 30, 2022, 2021, and 2020.

**Financial Highlights**

***Fiscal Year 2022***

Total assets as of June 30, 2022 increased approximately \$274,300 in comparison to June 30, 2021, due primarily to the investing of excess premiums received over cash payments out.

Total liabilities as of June 30, 2022 increased approximately \$1,389,000 in comparison to June 30, 2021, primarily as a result of an increase in the liability for unpaid losses and related expenses of approximately \$1,996,000 and a net decrease in the surplus distribution payable and other payables of approximately \$606,000.

Premiums earned for the year ended June 30, 2022 increased approximately \$951,000 in comparison to 2021, primarily as a result of an increase in budgeted premiums and a 2021 audit increase of approximately \$482,000. This increase was primarily related to the increase in overall budgeted operating expenses.

Interest and investment income (loss) for the year ended June 30, 2022 decreased approximately \$1,418,000 in comparison to 2021, primarily as a result of the market conditions yielding lower returns in 2022.

The Association's loss ratio, which is derived as the ratio of claim losses and loss adjustment expenses to premiums earned, was 79% for 2022 and 63% for 2021. A loss ratio greater than 100% indicates total losses incurred were in excess of total premiums earned. A loss ratio less than 100% indicates total losses incurred were less than total premiums earned.

Excess reinsurance premiums expense for the year ended June 30, 2022 increased approximately \$21,000 in comparison to 2021, primarily as a result of an increase of members' payroll and other factors. The Association's per occurrence retention was \$1,500,000 in 2022 and 2021.

***Fiscal Year 2021***

Total assets as of June 30, 2021 increased approximately \$1,094,000 in comparison to June 30, 2020, due primarily to the investing of excess premiums received over cash payments out.

Total liabilities as of June 30, 2021 decreased approximately \$76,000 in comparison to June 30, 2020, primarily as a result of an increase in the liability for unpaid losses and related expenses of approximately \$552,000 and a net decrease in the surplus distribution payable and other payables of approximately \$628,000.

Premiums earned for the year ended June 30, 2021 decreased approximately \$212,000 in comparison to 2020, primarily as a result of a decrease in budgeted premiums. This decrease was primarily related to the decrease in overall budgeted operating expenses.

Interest and investment income for the year ended June 30, 2021 decreased approximately \$741,000 in comparison to 2020, primarily as a result of the market conditions yielding lower returns in 2021.

The Association's loss ratio, which is derived as the ratio of claim losses and loss adjustment expenses to premiums earned, was 63% for 2021 and 64% for 2020. A loss ratio greater than 100% indicates total losses incurred were in excess of total premiums earned. A loss ratio less than 100% indicates total losses incurred were less than total premiums earned.

**Prince William Self-Insurance Group  
Workers' Compensation Association**

**Notes to the Basic Financial Statements  
June 30, 2022 and 2021**

---

**Note 1. Summary of Significant Accounting Policies**

The Prince William Self-Insurance Group Workers' Compensation Association (the "Association") prepares the financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing governmental accounting and financial reporting standards, which along with subsequent GASB pronouncements (statements and interpretations), constitutes GAAP for governmental units. The accounting and reporting framework and significant accounting principles and practices utilized by the Association are discussed in subsequent sections of these notes to the basic financial statements. The remainder of the notes are organized to provide explanation, including required disclosures of the Association's financial activities for the years ended June 30, 2022 and 2021.

Reporting entity: For financial reporting purposes, the Association is considered a component unit of Prince William County, Virginia (the "County"). Accordingly, the financial position, changes in financial position, and cash flows of the Association are blended in the internal service funds in the County's basic financial statements. The inclusion criteria which define the Association as a component unit are:

- All the Association's Board of Directors are appointed by the County, and
- A financial benefit/burden relationship exists.

General: Pursuant to the Commonwealth of Virginia's Insurance Regulations, the Association was licensed by the State Corporation Commission of Virginia ("SCC") to begin operations on July 1, 1989.

The Association members consist of the County and the Prince William – Manassas Regional Adult Detention Center. The Prince William County Park Authority merged with Prince William County effective July 1, 2012.

The objective of the Association is to make available a long-term, stable source of cost-effective workers' compensation insurance protection for participating members. The policies concerning the financial and business affairs of the Association are determined by the Board of County Supervisors (the "Board") and the County is the predominant participant. Since the County is the predominant participant, the Association is classified as an "entity other than a pool."

The Association provides workers' compensation and employers' liability insurance protection to its members. The Association is funded only by its members. The Association has an arrangement with a third-party administrator to process claims, perform claims adjustments, and authorize payment for such claims. The Association has also retained an association administrator for assistance and advice in the daily operation of the Association.

Basis of accounting: The Association's financial statements have been prepared using the economic resources measurement focus and accrual basis of accounting.

**Prince William Self-Insurance Group  
Workers' Compensation Association**

**Notes to the Basic Financial Statements  
June 30, 2022 and 2021**

---

**Note 1. Summary of Significant Accounting Policies (Continued)**

Cash equivalents: Cash equivalents include all highly liquid investments with original maturities of three months or less. Restricted cash and cash equivalents are reported as noncurrent assets. At June 30, 2022 and 2021, cash equivalents consisted primarily of investments in a Local Government Investment Pool ("LGIP") and money market mutual funds. These cash equivalents are valued at amortized cost, which approximates fair value. Money market mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

Investments: Certificates of deposit are stated at cost, which approximates fair value. All other investments are stated at fair value. All investments with maturity or call dates greater than one year from the Statement of Net Position date and all restricted investments are reported as noncurrent assets. Normally, the Association holds such assets to maturity, unless called, in which case the assets are reinvested in the current market environment.

Premiums: Annual premiums charged to members are collected in full at the beginning of the fiscal year and recognized ratably as revenue in the period for which insurance protection is provided. The premium is determined based on loss history and projected exposure for the year that insurance coverage is provided.

As a result of recalculating premiums based on actual payroll, the Association is either due additional premiums or owes refunds to participants at year-end. The premium recalculation using actual payroll figures is required to ensure compliance with the SCC regulations.

Unpaid losses and related expenses: Losses are charged to operations as incurred. The liability for unpaid losses is determined using case-basis evaluations and a provision for incurred but not reported losses that is based upon actuarial projections. Actuarial projections of ultimate losses are based on a composite of the Association members' experience and insurance industry data, which is used to supplement the Association's historical experience, and includes the effects of inflation and other factors. Claims liabilities include allocated loss adjustment expenses and are reported net of estimated amounts recoverable from excess reinsurance. Claims liabilities are not reported net of any discounting. A significant range of variability exists around the best estimate of the ultimate cost of settling all unpaid Association claims; accordingly, the amount of the liability for unpaid losses and related expenses and the related provisions included in the financial statements may be more or less than the actual cost of settling all unpaid claims, and such variations could be significant. Adjustments to claim liabilities are made continually, based on subsequent developments and experience, and are included in operations as made.

Excess reinsurance premiums: Excess reinsurance premiums for risk coverage are recognized as expenses in the applicable contract period, which coincides with the Association's fiscal year.

Federal and state taxes: The Association has been granted a federal income tax exemption pursuant to Section 115 of the Internal Revenue Code and a state tax exemption by the State Department of Revenue. Therefore, no provision for taxes is included in the accompanying financial statements.

**Prince William Self-Insurance Group  
Workers' Compensation Association**

**Notes to the Basic Financial Statements  
June 30, 2022 and 2021**

---

**Note 1. Summary of Significant Accounting Policies (Continued)**

Use of estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and certain reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Operating revenues and expenses: The Association's policy is to report all revenues and expenses as operating, with the exception of interest and investment income and other miscellaneous receipts.

Net position: Net position represents the difference between assets and liabilities in the financial statements. The net position of the Association is divided into two categories; restricted and unrestricted. Restricted net position results from requirements imposed by the *Code of Virginia* and includes a contingency reserve equivalent to 3% of the Association's earned premiums since inception. This reserve amounted to \$2,213,777 and \$2,004,757 at June 30, 2022 and 2021, respectively. In addition, in accordance with the provisions of Section 14 Virginia Administrative Code ("VAC") 5-370-60 of the *Code of Virginia*, for the licensing of the Association, the Association is required to deposit securities in the amount of \$500,000 with the Commonwealth of Virginia as additional collateral because the Association does not maintain aggregate excess insurance. Also, in accordance with the provisions of Section 14 VAC 5-370-60 of the *Code of Virginia*, the Association is required to maintain on deposit with the Commonwealth of Virginia investments in the amount of \$250,000, in lieu of a surety bond. Investments discussed in Note 2 were deposited with the Commonwealth of Virginia as of June 30, 2022 and 2021. While the securities are held by the Commonwealth of Virginia, they are held in the names of the Association and the County. The required deposits totaling \$750,000 are reflected as restricted investments at June 30, 2022 and 2021. The remaining net position is reported as unrestricted.

Subsequent events: The Association has evaluated subsequent events through October XX, 2022 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Workers' Compensation Association**

**Notes to the Basic Financial Statements  
June 30, 2022 and 2021**

---

**Note 2. Deposits and Investments**

**Deposits:**

Custodial credit risk: At June 30, 2022 and 2021, the carrying values (book balances) of the Association's deposits with banks and savings institutions were \$531,232 and \$274,800, respectively. The balances reported by the banks at June 30, 2022 and 2021 were \$534,226 and \$297,034, respectively. For deposits, custodial credit risk is the risk that, in the event of a failure of a depository financial institution, the Association may not recover its deposits. The Association does not have a deposit policy for custodial credit risk. Of the bank balances, 100% was covered by federal depository related insurance or collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"). Under the Act, banks holding public deposits in excess of the amounts insured by the Federal Deposit Insurance Corporation ("FDIC") must pledge collateral in the amount of 50% of excess deposits to a collateral pool in the name of the State Treasury Board. If any member bank fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the pool's collateral was inadequate to cover the loss, additional amounts would be assessed on a pro rata basis to the members of the pool. Collateral is not specifically identified as security for any one public depositor and public depositors are prohibited from holding collateral in their name as security for deposits. With the ability to make additional assessments, the multiple bank collateral pool functions similar to depository insurance. Savings and loan institutions are required to collateralize 100% of deposits in excess of FDIC limits. The Commonwealth Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act. Funds deposited in accordance with the requirements of the Act are considered fully secured and not subject to custodial credit risk.

In addition, at June 30, 2022 and 2021, the Association had \$399,192 and \$420,244, respectively, on deposit with the third-party claims administrators. Such amounts are not covered by federal depository insurance or collateralized.

**Investments:**

The Association's investment policy pursuant to *Code of Virginia* Sec. 2.2-4501 through 2.2-4518 is to invest in obligations of the United States or agencies thereof; "prime quality" commercial paper; certificates of deposits, negotiable bank notes and short-term corporate notes rated AAA or better by Standard & Poor's, Inc. and Aaa or better by Moody's Investors Service, Inc; bankers' acceptances; repurchase agreements; money market mutual funds; and the State Treasurer's LGIP.

The Association invests in an externally managed investment pool, the LGIP, which is not SEC-registered. Pursuant to Sec. 2.1-234.7 of the *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at its regularly scheduled monthly meetings, and the fair value of the position in the LGIP is the same as the value of the pool shares. The management of LGIP has determined that LGIP is in compliance with the requirements of GAAP and elects to measure its investments at amortized cost for financial reporting purposes. Therefore, the Association also measures LGIP at amortized cost for financial reporting purposes. The LGIP does not have any limitation or restrictions on participant withdrawals. Investments authorized for the LGIP are the same as those authorized for local governments in Sec. 2.2-4500 et seq. of the *Code of Virginia*.

Workers' Compensation Association**

**Notes to the Basic Financial Statements  
June 30, 2022 and 2021**

**Note 2. Deposits and Investments (Continued)**

**Investments (Continued):**

In accordance with Virginia Insurance regulations for the licensing of the Association, the Association is required to deposit securities with the State Treasurer. As of June 30, 2022 and 2021, the Association had \$935,692 and \$1,000,320, respectively, at fair value, in a Federal Farm Credit Bank bond, deposited with the State Treasurer to comply with the \$750,000 requirement as discussed in Note 1, with \$250,000 serving as a security deposit in lieu of a surety bond. The remainder serves as additional collateral because the Association does not maintain aggregate excess insurance. While these investments are held by the State Treasurer, they are in the name of the Association and are included in the investments of the Association.

As of June 30, 2022 and 2021, the Association's investments were as follows:

<b>Investments</b>	<b>Weighted Average Maturity*</b>		<b>Fair Value</b>	
	<b>2022</b>	<b>2021</b>	<b>2022</b>	<b>2021</b>
U. S. Government agency securities	<b>2.759</b>	3.819	<b>\$ 15,952,290</b>	\$ 9,949,830
LGIP	<b>0.000</b>	0.000	<b>7,801,814</b>	15,824,884
Money market mutual funds	<b>0.000</b>	0.000	<b>115,814</b>	134,949
Treasury Notes	<b>2.414</b>	0.000	<b>2,922,656</b>	-
Corporate bonds	<b>2.266</b>	1.364	<b>5,735,074</b>	6,727,055
Municipal bonds	<b>1.236</b>	2.222	<b>984,135</b>	1,035,390
<b>Total</b>			<b>\$ 33,511,783</b>	<b>\$ 33,672,108</b>

\*Duration in years

**Interest rate risk:** As a means of limiting its exposure to fair value losses arising from increasing interest rates, the Association's investment policy states that the weighted average maturity for the Association portfolio may not exceed three years, except to the extent that assets are purchased specifically for collateral deposits with the Commonwealth of Virginia as required by the SCC. The final maturity of any asset is matched to a specific obligation of the Association.

**Credit risk:** The *Code of Virginia* authorizes the investment in various instruments as described above. The Association's investment policy, however, does not provide for investments in obligations of other states and political subdivisions outside of the Commonwealth of Virginia. To minimize credit risk, the Association's investment policy seeks to diversify its portfolio by limiting the percentage of the portfolio that may be invested in any one type of instrument. The Association has no official policy to limit investments based on its ratings by nationally recognized statistical rating agencies. It is Association policy to invest in negotiable certificates of deposits from banks with a rating of at least A-1 by Standard & Poor's and P-1 by Moody's Investor's Services for maturities of one year or less, and a rating of AA by Standard & Poor's and Aa by Moody's Investor's Services for maturities over one year and not exceeding five years. Furthermore, the Association will only invest in money market or mutual funds with a rating of AAA by at least one nationally recognized statistical rating organization. During the year, the Association made investments in money market mutual funds, LGIP, corporate bonds, and obligations of agencies of the United States.

**Prince William Self-Insurance Group  
Workers' Compensation Association**

**Notes to the Basic Financial Statements  
June 30, 2022 and 2021**

**Note 2. Deposits and Investments (Continued)**

**Investments (Continued):**

As of June 30, 2022 and 2021, the Association's investment limits, ratings, and credit exposure are as follows:

Investment Type	Investment Policy Limit	Credit Quality (Rating)	Credit Exposure as a Percent of Total Investments	
			2022	2021
U. S. Government Agency Securities	100%	AAA	47.89%	29.55%
LGIP/Money market mutual funds	80%	AAAm/AAA	23.81%	47.40%
Corporate Bonds	25%	AA1/AA2/AA3/A1	16.92%	19.98%
Treasury Notes	100%	AAA	8.56%	0.00%
Municipal Bonds	25%	AA2	2.82%	3.07%
<b>Total</b>			<b>100.00%</b>	<b>100.00%</b>

Custodial credit risk: For investments, custodial credit risk is the risk that, in the event of the failure of the counter party, the Association will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. However, the Association's investment policy requires that all securities purchased by the Association be properly and clearly labeled as an asset of the Association and held in safekeeping by a third-party custodial bank or institution in compliance with Section 2.2-4515 of the *Code of Virginia*. Therefore, the Association has no custodial credit risk.

Concentration of credit risk: The Association places a limit on the amount it may invest in any one type of investment instrument as follows: 35% for commercial paper; 25% for corporate notes; 30% for bankers' acceptances and negotiable certificates of deposit; 50% for repurchase agreements; 40% for non-negotiable certificates of deposit; 100% for U.S. Government Agency Obligations; and 80% for money market funds and LGIP.

In addition, the Association places a limit on the amount it may invest with any single issuer as follows: 5% for commercial paper, bankers' acceptance, and negotiable certificates of deposit; 10% for non-negotiable certificates of deposit and corporate notes; 20% for repurchase agreements; and 40% for money market funds and LGIP. More than 5% of the Association's investments are in obligations issued by the following:

Investments	Fair Value		Percentage of Total Investments	
	2022	2021	2022	2021
Federal National Mortgage Association	\$ 932,072	\$ 997,650	2.78%	2.96%
Federal Home Loan Bank	9,335,796	3,981,080	27.86%	11.82%
Federal Home Loan Mortgage Corporation	2,890,126	1,993,310	8.62%	5.92%
Federal Farm Credit Bank	2,794,296	2,977,790	8.34%	8.84%
	<b>\$ 15,952,290</b>	<b>\$ 9,949,830</b>	<b>47.60%</b>	<b>29.54%</b>

Workers' Compensation Association**

**Notes to the Basic Financial Statements  
June 30, 2022 and 2021**

---

**Note 3. Fair Value Measurements**

Fair value was estimated for each class of financial instrument for which it was practical to estimate fair value. Fair value is defined as the price in the principal market that would be received for an asset to facilitate an orderly transaction between market participants on the measurement date. Market participants are assumed to be independent, knowledgeable, able and willing to transact an exchange and not acting under duress. Fair value hierarchy disclosures are based on the quality of inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs). Adjustments to transaction prices or quoted market prices may be required in illiquid or disorderly markets in order to estimate fair value. The three levels of the fair value hierarchy are defined as follows:

Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities traded in active markets.

Level 2 – inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, significant other observable inputs, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 – inputs to the valuation methodology are significant unobservable for the asset or liability and are significant to the fair value measurement.

Fair values of the Association's investment portfolio are estimated using unadjusted prices obtained by its investment manager from third-party pricing services, where available. For securities where the Association is unable to obtain fair values from a pricing service or broker, fair values are estimated using information obtained from the Association's investment manager.

Management performs several procedures to ascertain the reasonableness of investment values included in the financial statements including 1) obtaining and reviewing internal control reports from the Association's investment manager that obtain fair values from third party pricing services, 2) discussing with the Association's investment manager its process for reviewing and validating pricing obtained from outside pricing services, 3) reviewing the security pricing received from the Association's investment manager and monitoring changes in unrealized gains and losses. The Association has evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Association believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair values of certain financial instruments could result in a different fair value measurement at the reporting date.

**Prince William Self-Insurance Group  
Workers' Compensation Association**

**Notes to the Basic Financial Statements  
June 30, 2022 and 2021**

**Note 3. Fair Value Measurements (continued)**

The following tables present the balances of assets measured at fair value on a recurring basis as of June 30, 2022 and 2021, by level within the fair value hierarchy:

	June 30, 2022			
	Level 1	Level 2	Level 3	Total
<b>Investments</b>				
U. S. Government agency securities	\$ -	\$15,952,290	\$ -	\$15,952,290
Corporate bonds	-	5,735,074	-	5,735,074
Treasury Notes	-	2,922,656	-	2,922,656
Municipal bonds	-	984,135	-	984,135
	<u>\$ -</u>	<u>\$25,594,155</u>	<u>\$ -</u>	<u>\$25,594,155</u>
	June 30, 2021			
	Level 1	Level 2	Level 3	Total
<b>Investments</b>				
U. S. Government agency securities	\$ -	\$ 9,949,830	\$ -	\$ 9,949,830
Corporate bonds	-	6,727,055	-	6,727,055
Municipal bonds	-	1,035,390	-	1,035,390
	<u>\$ -</u>	<u>\$17,712,275</u>	<u>\$ -</u>	<u>\$17,712,275</u>

Due to the relatively short-term nature of cash, cash equivalents, receivables and payables, their carrying amounts are reasonable estimates of fair value. Level 2 investments used matrix pricing technique to measure fair value.

**Note 4. Excess Reinsurance**

For the fiscal years 2022 and 2021, the Association's per occurrence retention was \$1,500,000.

The Association provides for its excess reinsurance coverage through a commercial insurance carrier. The limits provided by the carrier above the Association's retentions for 2022 are as follows:

Workers' compensation	Statutory
Employer liability	\$1,000,000/occurrence

The Association remains contingently liable for the ceded portion of any claims in the event the reinsurer is unable to pay its portion.

**Note 5. Related Parties Transactions**

The Association's offices are located within County office space, and the Association utilizes the services of County personnel in its operations. As such, the Association pays the County for certain administrative and personnel support services. Such expenses totaled \$257,500 during both fiscal years 2022 and 2021. The amount due from related parties was \$169,636 at June 30, 2021 and related to a claims subrogation recovery from the County.

**Prince William Self-Insurance Group  
Workers' Compensation Association**

**Notes to the Basic Financial Statements  
June 30, 2022 and 2021**

---

**Note 6. Liability for Unpaid Losses and Related Expenses**

Activity in the liability for unpaid losses and related expenses is summarized as follows:

	<b>2022</b>	2021
Balance, July 1	<b>\$ 16,865,193</b>	\$ 16,313,360
Minus recoverable on paid losses	<b>(206,220)</b>	-
Net balance at beginning of year	<b>16,658,973</b>	<b>16,313,360</b>
Incurred related to:		
Current year	<b>5,100,000</b>	4,849,268
Prior years	<b>374,694</b>	(1,088,378)
<b>Total incurred</b>	<b>5,474,694</b>	<b>3,760,890</b>
Paid related to:		
Current year	<b>951,837</b>	905,941
Prior years	<b>2,700,372</b>	2,509,336
<b>Total paid</b>	<b>3,652,209</b>	<b>3,415,277</b>
Net balance at end of year	<b>18,481,458</b>	<b>16,658,973</b>
Plus recoverable on paid losses	<b>379,308</b>	206,220
Balance, June 30	<b>\$ 18,860,766</b>	\$ 16,865,193

The recoverable on paid losses was reported as due from related parties on the Statements of Net Position as of June 30, 2021 (Note 5). Management's estimate of the portion of the liability as of June 30, 2022 and 2021 to be paid within one year is \$2,432,000 and \$2,304,000, respectively. This estimate is based upon the Association's past experience. There was favorable loss reserve development during the years ended June 30, 2022 and 2021, as claims developed better than expected. No individual events were responsible for a significant portion of the changes.

**Note 7. Members' Supplemental Premiums and Credits**

As provided for in the constitution and bylaws of the Association, the Association's Board of Directors has the authority to assess members' premiums for any deficits and may provide for a distribution in the case of a surplus. During the fiscal year 2022 and 2021, the Board of Directors did not approve a distribution of surplus. At June 30, 2022 and 2021, the intent of the Board of Directors was not to pay out all of the distribution payable in the near-term, but rather hold a portion for future distributions to its members to be used for risk control initiatives and/or apply as a credit to future fiscal year premiums.

**Note 8. Commitments and Contingencies**

The members of the Association are contingently liable with respect to certain lawsuits as well as asserted and unasserted claims that have arisen in the ordinary course of the members' operations. It is the opinion of the Association, County management and the County Attorney that losses, if any, which may ultimately be incurred as a result of these claims in excess of amounts provided for in the accompanying financial statements will not be material to the Association or the County taken as a whole. During 2020, an outbreak of a novel strain of coronavirus ("COVID-19") emerged globally. As a result of the spread of COVID-19, economic uncertainties have occurred that could negatively impact the Association's assets, revenues and operations for an indeterminable period of time. Other financial impacts could occur that are unknown at this time.

**Report of Independent Auditor on the Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards**

To the Board of Directors  
Prince William Self-Insurance Group Workers' Compensation Association  
County of Prince William, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Prince William Self-Insurance Group Workers' Compensation Association (the "Association"), a component unit of the County of Prince William, Virginia, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Association's basic financial statements, and have issued our report thereon dated December 6, 2022.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Association's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, we do not express an opinion on the effectiveness of the Association's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Association's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Cherry Bekaert LLP*

Tyson's Corner, Virginia
