The Prince William County Department of Transportation (PWCDOT) is holding a Citizens Information Meeting on the proposed safety improvements to a portion of Logmill Road, Route 701. The staff would like to obtain your comments on the proposed project.

The proposal is to reconstruct a portion of Logmill Road just west of Hickory Grove, beginning approximately 1,200 feet west of Parnell Court and ending approximately 200 feet east of Meander Creek Lane. The proposed project will improve safety by increasing the existing sight distance and improving the vertical geometry to meet AASHTO standards on this segment of the road.

Please join us on August 8<sup>th</sup> to learn about and discuss design and traffic safety improvements proposed for this roadway safety project.
