

PRINCE WILLIAM COUNTY
Department of Development Services – Building Development Division

STRUCTURAL SLAB PLAN COVER SHEET

Version 2009-01-24

Structural Slab Design Engineer shall provide two sets of plans and sections of the structural slab and details of attachment of the proposed structure to the slab. The Design Professional shall also ensure that the structural slab supports the required loads and reactions from the structure.

Building Designer of Record is responsible to perform a detailed review of the structural slab design drawings, and any permanent connection details to ensure compatibility with the structural design of the building and County-approved building plans.

This cover sheet must be attached to each set of structural slab design drawings. A slab index must be indicated in the space provided below.

All copies of the structural slab design drawings MUST bear the original seal and signature of the structural slab design drawings designer.

“Upon review of the structural members shown on the following structural slab design drawings,

I, _____, as the building designer of record,
(Print Name)

certify that these drawings are in conformance with the Virginia Uniform Statewide Building Code and the County approved framing plan for the addition, the custom single family dwelling or the master-file model

_____, to be constructed
(Model Name)

by _____ at _____.
(Contractor/Builder Name) (Street Address)

The contractor is responsible for confirming the dimensions shown.”
