ENVIRONMENTAL CONSIDERATIONS

A review of the project corridor is being performed to determine the environmental impacts associated with this project. Prince William County will coordinate the review with the appropriate Federal, State, and Local agencies, and all required permits will be obtained prior to construction.

PRELIMINARY SCHEDULE

This project is following the design-bid-build process and will be awarded as a standalone construction contract. The following tentative schedule has been proposed for the Vint Hill Road Widening project:

- Spring 2017: Preliminary Design and Public Involvement
- Summer 2017: Initiate Right of Way Acquisition
- Fall 2017: Finalize Design / Begin Utility Relocations
- Winter 2017/2018: Advertise for Construction
- Spring 2018: Award Construction Contract and Begin Road Construction
- Late Summer 2019: Project Complete

GET INVOLVED

Give your written or verbal comments at the meeting or submit them by May 31st, 2017, to Ms. Sherry Djouharian, Project Manager, Prince William County Department of Transportation, at the address below. You may also email your comments to sdjouharian@pwcgov.org. Please reference “Vint Hill Road Widening CIM Comments” in the subject heading.

Ms. Sherry Djouharian
Prince William County Department of Transportation

Prince William, VA 22192
Email at: sdjouharian@pwcgov.org

The public comment period closes May 31st, 2017.
INTRODUCTION

The purpose of this Citizen Information Meeting is to acquaint you with the design process and the features of this planned project. These types of meetings are beneficial to citizens and the Prince William County Department of Transportation alike. They permit PWCDOT’s engineers to report the facts developed in their studies and to obtain citizens’ comments which assist in determining the design of the proposed project. Representatives from Prince William County and the design consultants are present to discuss your concerns and answer your questions.

This meeting provides the opportunity for any person (acting on his or her own behalf or representing a group or governing body) to offer comments or submit written material concerning the proposed project. The comments you make as a result of this meeting will be considered as we further develop the design plans. We welcome your comments and suggestions, whether written or verbal.

PROJECT DESCRIPTION

This project will widen Vint Hill Road just west of the intersection with Sudley Manor Drive (Route 1566) to the intersection with Kettle Run Road (Route 656). This project also includes improvements along Kettle Run Road from Vint Hill Road to Patriot High School. The project length is approximately 2,700 linear feet along Vint Hill Road and 1,100 linear feet along Kettle Run Road. VDOT classifies Vint Hill Road as an Urban Major Collector System roadway (GS-7 Standard) and Kettle Run Road as a Rural Local Road System roadway (GS-4 Standard).

Proposed Vint Hill Road will consist of four lanes with curb & gutter and will remain undivided. A sidewalk is proposed on the south side of Vint Hill Road between Sudley Manor Drive and Kettle Run Road and on the north side of Vint Hill Road between Kettle Run Road and Garry Glen Drive. A sidewalk is also proposed on the west side of Kettle Run Road to connect Vint Hill Road to the existing sidewalk at Patriot High School. Kettle Run Road will be widened to accommodate dual left turns from Kettle Run Road onto Vint Hill Road as well as to provide a dedicated receiving lane for vehicles making right turns from Vint Hill Road onto Kettle Run Road. Additionally, a second left turn lane is proposed on Sudley Manor Drive to allow dual left turns from Sudley Manor Drive onto Vint Hill Road. The traffic signals at Sudley Manor Drive and Kettle Run Road will be modified to accommodate these additional turning movements as well as to provide pedestrian signals and crossings at both intersections. The project also includes the relocation of public and private utilities.

This project is being administered by PWCDOT and developed in accordance with applicable VDOT guidelines and requirements.

ESTIMATED PROJECT COST

<table>
<thead>
<tr>
<th>Description</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Preliminary Engineering Estimate</td>
<td>$0.75 million</td>

<tr>
<td>Right of Way and Utilities Estimate</td>
<td>$2.75 million</td>
</tr>
<tr>
<td>Construction Estimate</td>
<td>$6.0 million</td>
</tr>
<tr>
<td><strong>Total Cost</strong></td>
<td><strong>$9.5 million</strong></td>
</tr>
</tbody>
</table>

This project is in the early design stage, therefore costs are subject to change. The project is being financed with County funds.

CIVIL RIGHTS

Prince William County ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and Title VII of the Civil Rights Act of 1964. If you need more information in regard to your civil rights on this project or special assistance for persons with disabilities or limited English proficiency, contact the project manager listed on the back of this brochure.

RIGHT OF WAY

Proposed right of way and easements will be necessary to construct this project and are shown on the preliminary plans. As we further develop and finalize the design for this project, additional easements for utility relocations may be required beyond the proposed right of way (ROW or R/W) and easements that are already shown on the preliminary plans. The property owners will be informed of the exact location of the easements during the right of way acquisition process and prior to construction. Information about right of way acquisition is discussed in VDOT’s brochure entitled, “Right of Way and Utilities: A Guide for Property Owners and Tenants.” Copies of this brochure are available from the County right of way agent.

After this meeting, information regarding right of way may be obtained from the right of way contacts listed below:

**Mr. Scott Hatten and Mr. Tim Witter**
