

OmniRide is Here to Help

OmniRide Local buses serve the vaccination sites listed below.

There are bus stops close to each location. For riders in eastern Prince William County who need a little extra assistance, with advance notice, buses can be rerouted to pick riders up from locations within $\frac{3}{4}$ mile of a route and drop them off directly at the vaccination site. Off-route service is not available in the Manassas area; however, riders may qualify for our paratransit service.

One of our friendly Customer Service Representatives can help you plan your ride.
