B.3 Progress Report.

Provide a description of the PHA’s progress in meeting its Mission and Goals described in the PHA 5-Year Plan.

Goal 1. Increase the availability of decent, safe and affordable housing.

Annual Progress Report:

Strategy 1 – Expand the supply of assisted housing.

Objectives:

1. Apply for additional rental vouchers.

The past reporting period’s focus was on maintaining service levels, following possible funding reductions. Therefore, during the reporting period, our focus has been on maintaining housing assistance levels for our existing program participants.

We invited 64 families from our Waiting List for special programs such as Family Unification Program (FUP), Non-elderly Disabled (NED) and Veteran Supportive Assistance Housing (VASH) programs waiting list. Staff continues to work with families to lease these and other specialty programs. Our goal for the next reporting period is to maintain or increase current leasing levels should funds permit. We will also apply for additional funding should grant opportunities present themselves.

2. Leverage private or other public funds to create additional housing opportunities.

We continue to look for leverage opportunities during the reporting period. Employment is one of our Family Self-Sufficiency focus areas. During the past year the program served 54 families. We hope to increase HCV participant participation during the next grant period.

We continue our partnership with DSS on their Fatherhood Initiative program, which is designed around strengthening families with having positive male role models more involved and/or reconnecting fathers to or with their children.

Several non-profit organizations also continue to expand their services to include family planning, employment training, as well as first time-home buyer’s assistance and affordable rental units to LMI households as well as special housing for persons with disabilities. OHCD’s Community Development Unit also continues to provide first time home buyers assistance, home rehabilitation assistance and a community funding pool. All of these efforts expand affordable housing opportunities for low income families in our community. Many of our HCV clients directly benefit from these programs and services.

Strategy 2: Improve the quality of assisted Housing.

Objectives:

Improve voucher management, Increase customer satisfaction & Concentrate on efforts to improve specific management functions.

1. Improve voucher management.

OHCD continues to look for ways to improve in this area. We partnered with the Virginia Housing Development Authority to utilize their housing search system. This is a free service that allows owners to list their units, in a more comprehensive way and provides them technical assist. Families now can access unit information from the comfort of their home via the internet. The system captures all types of unit information from affordability options (HCV, LIHTC, Elderly, & Accessibility) to if the complex has smoking or non-smoking units available. The unit listing encompasses the entire state of Virginia, allowing families’ greater access to available unit state wide. This system frees up valuable staff time and resources as we do not have to maintain the system ourselves. In addition to using the service by way of the internet they provide a toll free number where staff will work with both those looking to find rental units and owners wanting to list their units.

OHCD management staff has increased quality control reviews on a monthly basis. All new move-ins and 10% of all recertifications have quality control reviews performed by supervisors. Cases are reviewed in line with SEMAP regulations. We continue to offer Landlord Briefings every 1st Wednesday of the month. Information is provided to new and old owners regarding program rules of the Housing Voucher Program. During our portability briefing meetings, we get a portability survey completed from each family. This allows us to follow and improve our customer service.

2. Increase customer satisfaction.

Customer satisfaction remains a high priority of our office, as evident from above. Staff provides one-on-one interviews for recertifications, this gives the staff and family opportunity for family development discussions. As mentioned we continue to hold monthly owner orientations that are available to new and current owners and their staff. Staff also collaborates with other county agencies and community partners to expand services for our clients. A great example is the expansion of our FSS activities which included having OHCD’s Job Fair. The Fair also offered families on-site interviews.
3. Concentrate on efforts to improve specific management functions.

As stated above OHCD continue to look for way to improve management. Last year we increased our Quality Control (QC) by 10% as a result an audit finding last year. We made adjustments to ensure errors are identified earlier and appropriate corrective actions are completed timely. We will be exposing other cost saving measures like bi-annual inspections and online recertification. The move to an automated answering system has helped with the reduction in administrative support. Also the email encryption has increase the protection of client information. This e-mail system has allowed us to automate our portability process, which allow information to be transmitted to other jurisdictions more efficiently while protecting the family’s privacy.

Strategy 3: Increase assisted housing choices.

Objectives:

1. Provide voucher mobility counseling.

Mobility counseling is provided at initial lease-up, recertification, port-in, and when a family requests to move. We provide information on schools, transportation and other services within the County. Staff also counsels families of their obligation to maintain units in a safe, decent and sanitary condition during the course of their tenancy and upon moving out of the unit. Staff also, performs special inspections as needed to ensure HQS compliance is being maintained by owner and tenant.

2. Conduct outreach efforts to potential landlords.

OHCD continues to conduct Owner Outreach Sessions held monthly to explain the HCV program and market the program to potential owners. In addition, potential landlords have the opportunity to list their properties, free of charge, on the VEDA’s housing search website. OHCD has a website with various information including HCV program requirements and how to become a landlord on the program. OHCD also provides direct access to functional managers to answer questions and concerns on program requirements. A list of “Commonly Missed Items” is provided to potential owners interested in knowing “at a glance”, whether or not their unit quality for program participation. In addition, our website now includes all staff members with their name, phone, email and program covered to assist landlords.

3. Increase voucher payment standards when appropriate.

Yearly, OHCD reviews HUD published Fair Market Rents, conducts a survey and analysis of utility standards, and makes necessary adjustments within established guidelines to ensure that program participants are not rent burdened while at the same time ensuring that payment standards and utility costs are fairly representative of open market rents, and housing costs. The payment standards were revised effective 4-1-18 to reflect FMR based upon zip codes.

4. Expand voucher homeownership program.

During the reporting period, OHCD hosted several informational seminars to encourage participation in the Family Self-Sufficiency Program as well as HCV Homeownership Program. During the sessions, there was a continuing communication of the FSS programs’ key concentration areas of education, employment readiness/entrepreneurship, financial fitness, health and wellness and strengthening of the family. These areas of focus are considered essential as they provide a holistic approach to self-sufficiency, which includes homeownership. Program staff diligently encourages HCV program participants to explore homeownership options. The Housing Choice Voucher Homeownership program brochure is provided to HCV program participants who are interested in becoming homeowners, and HCV participants are briefed upon expressing interest in the program by the HCV Homeownership Program Coordinator. Currently there are 10 families participating in the HCV Homeownership Program. The program has served a total of 18 families. Our goal is to have 25 families participating in the program.

Goal II. Promote self-sufficiency and asset development of families and individuals.

Annual Progress Report:

Strategy 1: Promote self-sufficiency and asset development of assisted households:

Objectives:

1. Increase the number and percentage of employed persons in assisted families.

The primary focus of the Family Self-Sufficiency (FSS) Program during this reporting period, while continuing to emphasize the holistic development of all family members, is to increase the number and percentage of employed persons in assisted families - both within the core FSS Program and larger HCV program. The FSS program produced its third OHCD sponsored Job Fair which was a success and at its conclusion immediately began to plan another. The job fair focused on summer jobs and internship opportunities for youth. Interim classes in job preparedness such as resume writing and critique, interviewing and classes in entrepreneurship bring this focus full circle. For calendar year 2016 there were 68 Family Self-Sufficiency participants.

2. Provide or attract supportive services to improve assistance recipients’ employability.

The FSS Program will continue to seek during CY2019 to expand and strengthen its base of community partners, and strengthen client participation in the formalized program of foundation activities required for client success, while continuing the pilot expansion to the HCV program as a whole. We continue to work with other organizations that offer GED training, resume writing, interviewing techniques as well as other services. OHCD has partnered with non-profit and SunTrust Bank to provide a Financial Empowerment Symposium to increase financial awareness as well as empower families to increase their living standard and employability by providing resources for credit review, analysis and financial counseling. Additional FSS program planning during this reporting period will include Prince William County’s FSS program partnering with the District of Columbia, Maryland and Virginia area regional FSS Roundtable for a regional Job Fair during the next fiscal year. Finally, planning will begin for the FSS program to produce its Education Symposium, featuring a book fair, which will occur during the next reporting period. The goal of the Education Symposium, in planned
partnership with area and state educational institutions and related organizations, to increase the educational achievement levels of assistance. An additional focus for this symposium will be to increase language and math literacy skills within the family. Families are mobilized as the result of higher education achievement levels, including increased language and math literacy, to not only become more readily employed, but also increase employment wages and opportunities in the short and long term.

3. **Provide or attract supportive services to increase independence for the elderly or families with disabilities.**

OHCD is a member of the County’s Human Services Agency Team. This team consists of the Area Office on Aging, Community Service Department, Department of Social Services, and The Virginia Cooperative Extension Office. Being a part of this team gives OHCD direct access to key personnel in each agency and allows us to receive important information on services available to the elderly and persons with disabilities. The Agency Directors meet on a monthly basis to keep each other appraised of new programs and services. This gives us the ability to better coordinate services. OHCD also works closely with the local Continuum of Care (COC) organizations and Human Services Coalition. More importantly OHCD’s Housing Board has representatives from the Area Office on Aging, Community Service, COC and Disability Services Board. They provide vital programmatic oversight and share information regarding affordable housing issues/concerns facing the elderly and persons with disabilities. Many of our clients receive supportive services from the above agencies and community partners, these include but limited to, job training, counseling services, educational services and housing services.

4. **Expand Family Self-Sufficiency activity & programming availability to all assisted households.**

The FSS Program continues to invite all participants to its events. While there will be a continuing emphasis on the five key areas of education, employment readiness/entrepreneurship, financial fitness, health and wellness and strengthening of the family – there is an increased focus on moving assisted participants towards employment and increased education achievement levels in the activities produced and planned during this reporting period. It is hoped that all families will benefit from these activities.

**Goal III. Ensure Equal Opportunity in Housing for All Americans.**

**Annual Progress Report:**

**Strategy 1:** Ensure equal opportunity and affirmatively further fair housing.

**Objectives:**

1. **Undertake affirmative measures to ensure access to assisted housing regardless of age, race, color, religion national origin, sex, familial status, and disability.**

OHCD continues to work closely with the PWC Human Rights Commission to ensure proper Fair Housing information distribution to program applicants and participants. As part of the briefing process, we provide HCV program applicants with pertinent information about fair housing requirements. Fair Housing posters are conspicuously placed at our OHCD offices. Also, OHCD consults with PWC Human Rights Office, the PWC Attorney, and HUD field office to seek guidance and/or clarity on issues where owner lease requirements may appear ambiguous and/or discriminatory. FY19 and FY20 OHCD contracts with PWC Human Rights Commission to conducting fair marketing and outreach. This contract for these services is between OHCD and the PWC County Human Rights Commission is funded through the County’s Community Development Block Grant (CDBG) administrative funds.

2. **Undertake affirmative measures to provide a suitable living environment for families living in assisted housing, regardless of age, race, color, religion, national origin, sex, familial status, and disability.**

As mentioned previously OHCD through our partnership with VHDA is providing more housing choice as well as unit and community information so families can make a more informed choice when searching for a unit. OHCD continuously monitors and enforces HQS requirements to ensure program compliance by owners and participants. Inspection staff is proactive during inspections in identifying health and safety issues that may necessitate reasonable accommodation for individuals with disabilities. Program staff disseminates information during each stage of the tenancy continuum. Participants and owners are provided with Briefing Packages that contain, among others, a HUD publication “A Good Place to Live”, a “Know Your Fair Housing Rights” pamphlet, and The Virginia Landlord-Tenant Handbook.

3. **Undertake affirmative measures to ensure accessible housing to persons with all varieties of disabilities regardless of unit size required.**

OHCD continues to target new owners and retain those already participating in the HCV program through our owner outreach program (owner briefing) designed to broaden the base of units available to HCV families with disabilities. As part of the intake application and recertification processes, OHCD continually solicits information on the need for reasonable accommodation to ensure families that need accommodation receive the appropriate accommodation. The new housing search system identifies accessible units as well. This year OHCD created and Owner Handbook and a Briefing Package.

Certification by State or Local Official of PHA Plans Consistency with the Consolidated Plan or State Consolidated Plan

I, [Official's Name], [Official's Title], certify that the 5-Year PHA Plan and/or Annual PHA Plan of the [PHA Name]

Prince William County

is consistent with the Consolidated Plan or State Consolidated Plan and the Analysis of Impediments (AI) to Fair Housing Choice of the [Local Jurisdiction Name]

Prince William County

pursuant to 24 CFR Part 91.

Provide a description of how the PHA Plan is consistent with the Consolidated Plan or State Consolidated Plan and the AI.

The PHA Plan is consistent with both the 5-Year Consolidate Plan (FY16-20) and Analysis of Impediments To Fair Housing Choice (AI). The Consolidated Plan Goal Summary for the homeless goals designates that Tenant-Based Housing Choice Vouchers (HCV) are needed for rental assistance. In addition the Plan states that Fair Housing is a goal for the administration of all federal programs. Under the housing objective the Plans goal is to improve the condition and availability of affordable housing. In relation to the AI Affordable Housing is cited as an impediment. The majority of units are unaffordable to households earning at or below 50 percent of the area median. Those households at the lowest income levels constitute more than 70 percent of all low-income renter households. There are gaps between the supply of affordable housing and the number of low- to extremely low-income households, indicating that there are more low-income households than there are affordable rental units.

I hereby certify that all the information stated herein, as well as any information provided in the accompaniment herewith, is true and accurate. Warning: HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3730)
